BOUNDLESS ENERGY™

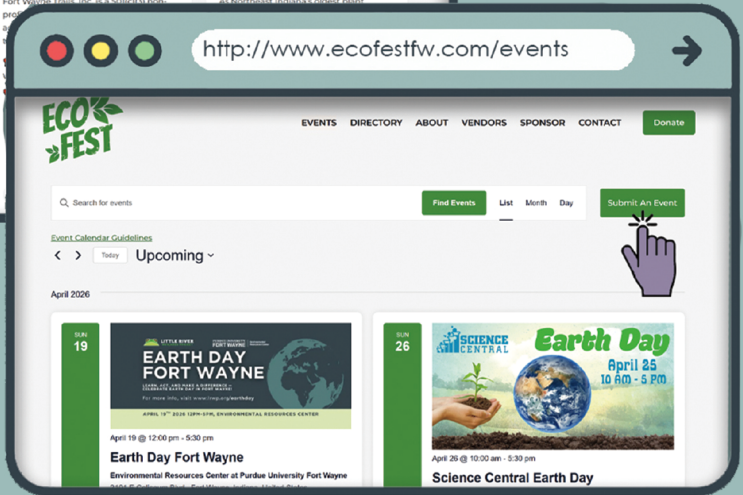

Addie Farris
executive director

Welcome to the 7th annual Eco Fest!

Our mission has always been to help connect our community to businesses and organizations that have sustainable practices and missions, and we continue to do that with our event every year. Additionally, we've added an events calendar and directory to our website to keep that connection going all year long.

We have expanded our kids activity offerings at our event this year and we hope families enjoy having something fun (and maybe a little educational!) to do. It's more important now than ever that we keep Eco Fest free and accessible so anyone can enjoy it.

Thank you for attending, and stay connected by subscribing to our newsletter at www.ecofestfw.com

POWERING THE NEXT MEANINGFUL MOMENT

We are proudly committed to supporting local initiatives and organizations that elevate quality of life and improve our communities.

In 2025, Indiana Michigan Power supported 137 local organizations, while I&M employees committed over 4,000 hours of their time to volunteering in the same communities we live and work.
